

**Atascadero / Green Valley Watershed Council
2009 PROJECTS**

PROJECT	LEAD	HELP
Distribute a watershed map to schools	Jean	John
Maintain watershed signage	John	Jean
Inform the PRMD of all parcel nos. in watershed and request notification of permit applications; review permit applications and respond as appropriate; notify email group of permit applications when appropriate	John	Zeno
Farm tours	Bob	John
Create and gather watershed information (indicator reports, simple map with annotations, maps of walking routes, biking routes, distribution of sudden oak death, invasives, degree of imperviousness, ag uses, etc., photographs, poetry, art). Make this information available on our website.	Zeno	Jean
Work with the RCD on the watershed assessment	Bob	Zeno
Create a logo	Bob	Stephen
Develop a "who to call" list / "what to do" list	Stephen	Jean
Oak Grove storm water project	Jean	Zeno
Actively support sustainable farmers/food producers & CAFF	Bob	Zeno
Plan out and then write a year's worth of regular columns for the West County Gazette	Jean	Zeno, John
Create a Welcome Wagon package and send it to new watershed residents	Jean	Stephen
Educate realtors about watershed issues	John	Stephen
Work with the lower Green Valley restoration group	John	
Network with SCWC	Stephen	John
Photo competition in newspaper – “Where was this taken?”	Stephen	Bob
Work with SCFCWG (Forest Conservation)	Stephen	
Create a schedule of events for the year including: cleanups, creek walks, speakers, farm walks, treatment plant tours, invasive plant eradications, presentations by experts, local authors, etc.	Zeno	Bob
Study existing reports which relate to our watershed	Zeno	
Encourage walking and biking in the watershed.	Zeno	
Serve as a vehicle for getting out information on reducing carbon footprint in the area. Workshops on reducing reliance on propane, proper management of well and septic, reducing well water use through rainwater harvest and graywater systems, etc, would be perfect for our council to host.	Zeno
